

UPSC GUIDE: Comprehensive Profile & Course Framework

Cross-Platform Content Intelligence for Ashoka IAS Academy Integration

Purpose:	Provide precise inner-page text, structural pillars, and collaborative marketing descriptions to integrate UPSC GUIDE data into the Ashoka IAS Academy portal.
Target Center:	Guwahati Offline/Blended Learning Center
Course Mapping:	UPSC GS Prelims cum Mains Foundation Batch 2027

1. Executive Institutional Profile

UPSC GUIDE is an elite ed-tech ecosystem and civil services coaching institute in India. Built upon the metrics of accessibility and data-driven learning, the platform has supported over **11 Lakh+ students**, generated more than **3.5 Crore+ minutes** of educational consumption, and facilitated over **1.2 Crore+ question attempts** across its digital and physical landscapes.

The pedagogical vision focuses heavily on breaking the geographical monopoly of traditional hubs (like New Delhi) by building state-of-the-art hybrid regional centers in key locations including Pune, Bengaluru, Srinagar, and Guwahati.

2. Structural Pillars of the 3-Phase Model

The core architecture of the inner program curriculum consists of a scientifically structured 1.5-year roadmap, designed to guarantee programmatic coverage and prevent student burnout:

Phase 1: Foundation Building (NCERT Beginner to Advanced Mastery)

- **Objective:** Establishes a concrete base across all core subjects, removing barriers for first-time civil services aspirants and college students.
- **Mechanics:** Complete multi-layered tracking of standard NCERTs and reference publications linked strictly with past UPSC Civil Services Examination (CSE) questions.
- **Deliverables:** Regular subject-specific descriptive diagnostics and Multiple Choice Questions (MCQ) templates to evaluate primary reading retention.

Phase 2: Mains Transformation (Syllabus Mastery to Rank-Oriented Answers)

- **Objective:** Focuses on converting fundamental historical, geographical, economic, and political knowledge into highly structured, evaluative written sheets.

- **Mechanics:** Full delivery of GS Papers I through IV alongside comprehensive Essay mentorship modules. The methodology links deep dynamic current items to standard textbook baselines.
- **Deliverables:** Daily structured answer writing drills, individual response sheet corrections, structural presentation training, and direct mentor diagnostics.

Phase 3: Prelims Mission Mode (Accuracy • Speed • Selection)

- **Objective:** Builds precise elimination techniques and objective reasoning patterns required to confidently cross competitive cutoffs.
- **Mechanics:** High-intensity thematic revisions utilizing structured short notes, trend-mapping frameworks, and micro-analytics.
- **Deliverables:** Practice across an extensive databank of **10,000+ top-tier MCQs**, regular simulated sectional tests, and national-level full-length mock examinations under strict timer limits.

3. The Personal Mentorship Ecosystem

A distinguishing feature of the framework is its strict rejection of large-scale, unmonitored mass-batch paradigms. Instead, the curriculum embeds an individual-centric tracking matrix:

- **Continuity:** One dedicated personal mentor is permanently assigned to an aspirant for the entirety of their 450-day learning calendar.
- **Bureaucratic Validation:** Complemented by active masterclasses and strategic checks overseen by verified administrative officers and toppers (e.g., Dr. Kiran Bedi, IPS; Srushti Deshmukh, IAS; Mudit Jain, IRS).

4. Core Course Matrix (Guwahati Center Mapping)

Below is the exact course architecture configuration for deployment onto web layouts and technical cards:

Parameter	Specification Details
Course Title	UPSC GS Prelims cum Mains Foundation Batch 2027 (Guwahati Center)
