

Detailed Explanation:

DAILY PRACTICE PAPER-

09/05/2026

1. Which of the following parts of the Indian Constitution is described as the “Conscience of the Constitution”?

- A. Fundamental Rights
- B. Directive Principles
- C. Preamble
- D. Right to Constitutional Remedies

Answer: D

Detailed Explanation:

B. R. Ambedkar called the Right to Constitutional Remedies (Article 32) the “heart and soul” or conscience of the Constitution because it allows citizens to directly approach the Supreme Court for protection of Fundamental Rights.

2. The phenomenon in which the apparent frequency of sound changes due to relative motion between source and observer is known as:

- A. Raman Effect
- B. Doppler Effect
- C. Photoelectric Effect
- D. Zeeman Effect

Answer: B

The Doppler Effect explains why ambulance sirens sound different when approaching and moving away. Frequency increases when source approaches and decreases when it moves away.

3. Which among the following soils is richest in humus and organic matter?

- A. Alluvial soil
- B. Black soil
- C. Laterite soil
- D. Forest soil

Answer: D

Detailed Explanation:

Forest soil, especially in hilly and forest regions, contains high organic matter due to decomposition of leaves and vegetation.

4. The term “Fiscal Deficit” refers to:

- A. Excess of exports over imports
- B. Excess of total expenditure over total receipts excluding borrowings
- C. Difference between revenue expenditure and capital expenditure
- D. Total income earned by the government

Answer: B

Detailed Explanation:

Fiscal deficit indicates how much the government needs to borrow to meet expenses. It is a key indicator of financial health.

5. Which of the following bodies recommends the distribution of tax revenues between the Centre and States in India?

- A. NITI Aayog
- B. Finance Commission
- C. GST Council
- D. Planning Commission

Answer: B

Detailed Explanation:

The Finance Commission of India is constituted under Article 280 to recommend tax-sharing formulas.

6. Which layer of Earth is mainly responsible for generating the magnetic field of the Earth?

- A. Crust
- B. Mantle
- C. Outer Core
- D. Inner Core

Answer: C

Detailed Explanation:

The liquid iron and nickel movement in the outer core generates Earth's

magnetic field through the geodynamo process.

7. The "Blue Water Policy" is associated with which ruler?

- A. Akbar
- B. Shivaji
- C. Alauddin Khilji
- D. Rajaraja Chola

Answer: B

Detailed Explanation:

Shivaji emphasized naval strength and maritime security through the Blue Water Policy.

8. Which among the following is NOT correctly matched?

- A. Barometer — Atmospheric pressure
- B. Lactometer — Purity of milk
- C. Hygrometer — Earthquake intensity
- D. Anemometer — Wind speed

Answer: C

Detailed Explanation:

- Hygrometer measures humidity.
- Earthquake intensity is measured using a seismograph/seismometer.

9. The concept of “Rule of Law” in the Indian Constitution is borrowed from:

- A. USA
- B. France
- C. Britain
- D. Canada

Answer: C

Detailed Explanation:

The concept comes from British constitutional tradition, especially the ideas of A.V. Dicey.

10. Which of the following is the correct descending order of atmospheric layers from Earth’s surface upward?

- A. Troposphere → Stratosphere → Mesosphere → Thermosphere
- B. Stratosphere → Troposphere → Thermosphere → Mesosphere
- C. Troposphere → Mesosphere → Stratosphere → Thermosphere
- D. Thermosphere → Mesosphere → Stratosphere → Troposphere

Answer: A

Detailed Explanation:

Correct atmospheric order:

- 1. Troposphere
- 2. Stratosphere

3. Mesosphere

4. Thermosphere

5. Exosphere
